

DAVITEM INVESTMENTS LIMITED

Company Profile

2024

Introduction

Davitem Investments Ltd. is a premier provider of solar energy solutions in Zambia, offering high quality products that bring reliability, energy independence, and cost savings to our clients.

Our mission is to empower homes, businesses, and industries with sustainable energy alternatives that combat power outages and reduce grid dependency.

Why Solar?

Solar energy is a practical and sustainable solution to Zambia's power challenges, offering numerous advantages:

- **Reliable Power:** Solar provides a dependable source of electricity, minimizing disruptions during outages.
- **Cost-Effective:** Solar systems reduce energy costs over time, providing a solid return on investment.
- **Off-Grid Capability:** Ideal for remote locations without grid access.
- **Environmental Benefits:** Solar energy is clean, renewable, and reduces carbon emissions.

Our Products and Solutions

1. Solar Panels

Our high-efficiency solar panels convert sunlight into clean, renewable electricity, ideal for homes, farms, and commercial buildings.

We offer a variety of panel sizes to suit both small and large-scale energy demands, helping to offset grid power and provide a sustainable, reliable energy source.

2. Hybrid Inverters

Our hybrid inverters enable smooth switching between solar power, battery storage, and the grid.

They ensure uninterrupted power and integrate easily with battery systems for effective energy management.

These inverters are also equipped with smart technology for optimal performance.

3. Lithium Batteries

Designed for long-term energy storage, our lithium batteries store excess solar power for use when needed.

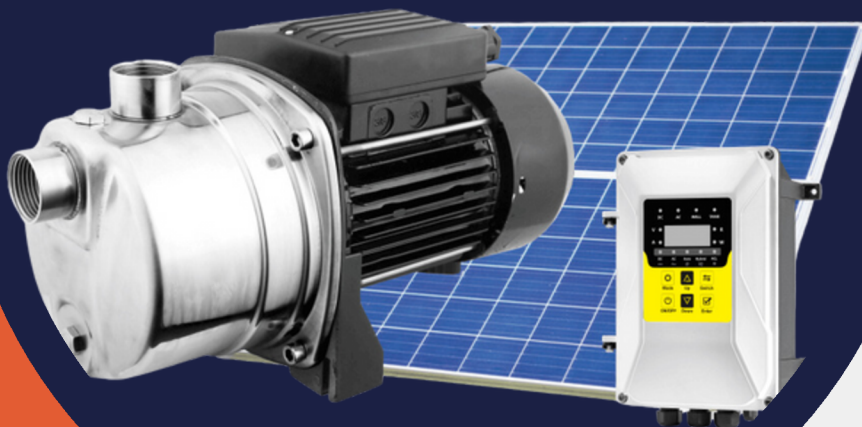

These durable, high-capacity batteries are essential for both off-grid and backup systems and can be scaled to various sizes, making them ideal for homes, offices, and industrial applications.

4. Hybrid Booster Pumps

These hybrid booster pumps operate on both AC and DC power, providing flexibility and ensuring a consistent water supply.

Powered by solar energy but adaptable to grid power, they are ideal for residential and agricultural use, especially in remote areas where grid access may be limited or unreliable.

5. Submersible Pumps

Our solar hybrid submersible pumps, powered by both AC and DC, are designed to meet the water demands of homes, large facilities, institutions, and agricultural operations.

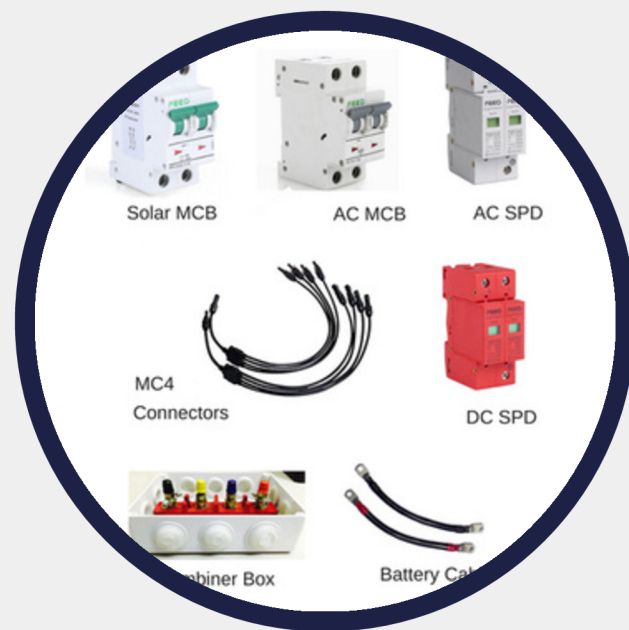

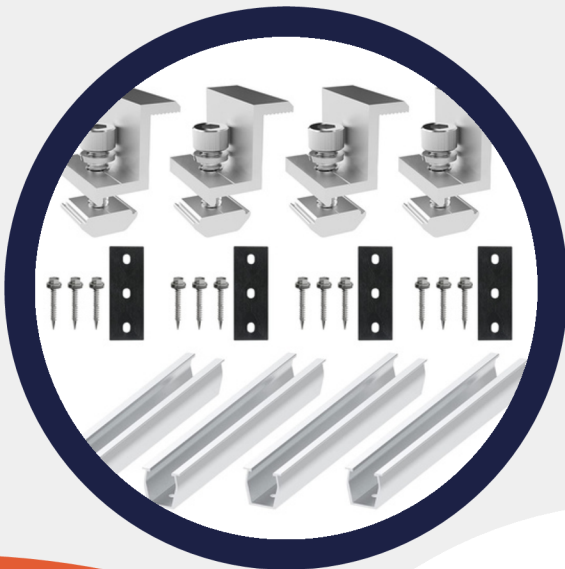

These pumps efficiently draw water from deep sources, making them ideal for irrigation, livestock, and household needs, providing a sustainable and reliable water solution for both on-grid and off-grid applications.

6. Solar Accessories

We offer a complete range of solar accessories, including mounting systems, cables, and connectors, essential for efficient and safe system installation and operation.

These accessories are designed to enhance performance and ensure system longevity.

Why Choose Davitem?

- **Customized Solutions:** We assess your specific energy needs to provide solutions that maximize efficiency and value.
- **Professional Installation:** Our experienced team installs systems to the highest standards for reliable performance.
- **Quality and Reliability:** We supply only high-quality products that ensure long-lasting results.
- **Dedicated Support:** We provide ongoing support and maintenance to keep your system operating at peak efficiency.
